The following is an examiner's statement of reasons for allowance: There is no prior art of record that teaches or suggests a method of making a flash memory device by sequentially forming a tunnel oxide film, a first polysilicon film and a hard mask film on a semiconductor substrate and implementing a cleaning process so that the oxide film is recessed to an extent that a portion of a sidewall of the first polysilicon film is exposed but so that the bottom portion of the sidewall of the first polysilicon film is not exposed and remains covered by the oxide film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
